Have you ever had an experience or witnessed an event that was ***beyond improbable***? Stories about such events and experiences are ***interesting***. They ***touch us*** at a deep level. They can ***alter our world view*** and ***what we think it means to be human***.

Allen Campbell is convening a group to share such ***extraordinary true stories***. Allen will tell you some personal experiences and true stories that others have told him. ***Other speakers*** will share their stories. This is a chance for ***you*** to share your amazing story.

We will also talk about relevant concepts and possible explanations like cause and effect, prayer, synchronicity, serendipity and mere coincidence, and the strong possibility that sometimes no explanation of any kind is adequate.

In sharing our stories, we will be following in the footsteps of *Billye Jones*, who collected true stories and published them in her book *Angel Power, Angel Love*. Billye will read one of the stories from her book and share her insights.

Allen is a businessman/lawyer who has years of education and training in relevant fields, such as New Thought, Christianity and Eastern spiritual traditions, probability and statistics, and mind-body-spirit disciplines like meditation, yoga, tai chi and qigong. Allen is a Master Practitioner of Neuro-Linguistic Programming.

Love offering: Whatever amount you feel moved to give. \$15 suggested.

All proceeds will go to support Unity of Dallas.
